EDW. J. GARDNER NURSERY

201 RICH STREET

HORICON, WISCONSIN

Nursery on Highway 33 - 2½ Miles East of Horicon, Wisconsin

Price List for Fall 1951 and Spring 1952

(Revised August 1, 1951)

Peonies, Own-Root Lilacs, Mock Orange, Flowering Almonds, Plums, Etc.

TERMS: Cash with order or 25% payment with order, balance C. O. D. All Lilacs and other Shrubs shipped by express, customer to pay all transportation cost. We pay postage on all peony orders amounting to \$5.00 or more. Add 25c to cover postage and packing on orders under this amount. If plants are sent C. O. D., the collection charges are charged to the customer. No charge is made for packing orders amounting to \$5.00 or more.

If orders include both peonies and lilacs or other shrubs, the peonies are sent by mail post paid, but the shrubs are shipped express, customer to pay all transportation charges.

We start filling peony orders early in September and the bulk of the shipping is done just after the middle of the month. We can ship at any time from September 1 to October 31 if customer indicates desired date.

DISCOUNTS: Since large order cost little more to fill and pack than small ones, the saving is passed on to our customers by the following discounts:

5% discount on orders amounting to \$10.00 or more.
10% discount on orders amounting to \$25.00 or more.
15% discount on orders amounting to \$50.00 or more.

Effective August 1, 1951 — These discounts apply to everything except Lilac specimens which are selected from our show bed, the prices which are net.

The GARDNER NURSERY LILAC COLLECTION contains most of the finest varieties of FRENCH LILACS in existence. We say the finest, because these varieties are so listed by "Lilacs for America". We have 99 of the 100 listed as the very best and practically all our varieties are in the recommended list of that publication.

We also have most of the Lilac species and many of the Hybrids between species, including practically all of the fine new Canadian Early Lilacs and many of the late Canadians. In all, we have more than 250 varieties of Lilacs, many so new and rare that they are offered by few nurseries.

Over 160 varieties of Lilacs are offered in this list, many of them scarce because they are new or difficult to propagate. The varieties and plant sizes we have to offer for Fall and Spring delivery are shown. Scarce varieties are marked with one "*" after the name. We recommend that our customers indicate a second choice, if possible, when they order scarce items. We will not substitute unless the customer asks us to do so and we do not buy in stock to fill orders when we are short.

Varieties marked "*" are sold out on stock available for Fall, 1951 and Spring 1952 delivery, but we expect to have plants ready for Fall, 1952 and Spring, 1953 delivery. Orders may be placed now for these varieties but it is not necessary to make a down payment until we notify you that plants are available for shipment.

OWN-ROOT LILACS — People familiar with lilacs know the importance of having lilacs grown on their own roots. Such plants are easier to start and are as hardy and as long living as a common lilac. Grafted lilacs seldom do well until they produce their own roots. Some take years to do that, many never do and remain stunted and eventually die.

Producing OWN-ROOT LILACS is slower and more costly than propagation by grafting; therefore TRUE OWN ROOT LILACS are offered by only a few specialists.

Every GARDNER LILAC offered is a genuine OWN-ROOT plant, never a privet graft that may some day have its own roots if planted deep. Every plant is grown right here in our nursery.

The following is a list of lilac varieties and sizes of plants we have to offer for Fall, 1951 and Spring, 1952 delivery. For ease in finding each of the many lilacs we have, all varieties are listed in alphabetical order. EL means Early Lilacs. This class bloom a few days to a week or more earlier than the common lilac Vulgaris and the French Hybrids. Clusters are usually very large and graceful. The Canadian varieties (marked Can.) are of very recent introduction and the demand for them is increasing very rapidly.

LL means Late Lilacs. These lilacs bloom two weeks or more after the French lilacs, thus greatly lengthening the lilac season. All have single flowers. Abbreviations after the name indicate the parentage as follows:

PR — *Prestoniae* — *Villosa X Reflexa*.
JF — *Josiflexa* — *Josikaed X Reflexa*.
NAN — *Nanceiana* — *Henryi X Sweginzowi*.
SF — *Vilosax X Sweginzowi*.
HT — *Henry I X Tomentello*.

FB means Fall Bloomers. We believe these two lilacs merit special mention because they are so different from any of the other lilacs and while they bloom heavily in Spring they also bloom again intermittently in the Summer and Fall. They resemble each other considerably in color and type of flower. Potanini is of more upright growth and the small leaf is quite olive green, while the Microphylla Superba foliage has a more bluish tone and the bush is more spreading in growth. The Potanini buds are bright coral and ornamental for a long time before the flower opens. The blossoms are pinkish white with red throats. Microphylla Superba has about the same shade of buds and flowers though the throat markings are not as pronounced as on the Potanini.

LILAC EDWARD J. GARDNER D. PINK (Gardner Seedling No. 443). (Patent Applied For).

This is the beautiful double pink lilac visitors so much admired during our lilac displays of the past two years. We did not intend starting sale of this variety for at least another year in order to build up a good stock, but there was so much demand for the plant that we named it and applied for a patent on it and are offering a few plants for 1951 delivery. The buds are of a mauve pink shade that lightens as the flowers open, the blooms becoming a beautiful light pink that glows in the sunlight, making a striking effect and attracting everyone's attention. The individual florets resemble a hyacinth floret in form and measure $\frac{7}{8}$ " across and are double. Two to three rows of petals appear to come from a single corolla. The inner petals are narrow and deeply channeled, outer petals broad and recurved. The bloom panicles are large and loosely branching often showing five to eight separate spikes to the cluster. As a cut flower, the keeping qualities are very good and the blooms are quite fragrant. The plant is a strong and rapid grower.

PEONIES

Peonies are the most easily grown of all the hardy flowering plants. Each year they produce a wealth of gorgeous blooms over a period of several weeks. With a little care, the plants live and produce for many years, therefore it pays to plant only the finest varieties. Our list contains many of the highest rated varieties.

GARDNER SEEDLING LIST

We have been working on the development of Peonies since 1925 and have produced quite a number of varieties that find favor with visitors to our peony show — so much so that the bulk of the orders taken for peony plants are for plants of our own origination. All seedlings listed have been tested and proven for years before being offered for sale.

No. 4. — MILDRED GARDNER	— Very large flat fully double flowers of a deep lilac pink shade. Tall strong stems. Blooms well even when others fail	3.00
No. 15. — JOHN GARDNER	— Bright Red disc fading to rosy red with a center of bright red petaloïdes, each bordered with an edge of brightest gold. A fine landscape variety as it is a heavy bloomer and does not grow too tall. Visitors to our nursery always admire this peony and it has been our best selling variety during the past three seasons	4.00
No. 22 — GORDON KAVOLSKY	— Soft pink large loose blooms on plant of dwarfish growth. Fine for landscape purposes	4.00
No. 36 — LARRY GARDNER	— Tall growing varieties of large white blooms. Excellent for cut flowers	4.00
No. 40 — IMMENSE DEEP ROSE	— Blooms on tall strong stems. Does not open well every year, but is so spectacular that it is worth waiting for	3.00
No. 41 — FLORENCE GARDNER BOLIN	— A good sized bloom of bright pink with light red markings that enhance the beauty of the flower. In shape and construction, the flower resembles a large pink carnation and many visitors have suggested that it be named "Pink Carnation". The plant produces a very large number of medium sized blooms that are excellent for cutting	3.00
No. 111 — THERESE GARDNER	— A fine late white peony of our own origination. Opening flowers tinted pale gold and salmon, fading to pure white. Extremely late, yet every bud opens well. This is an exceptionally fine cut flower sort and it opens after all other good peonies are through	4.00
No. 113 — JESSIE GARDNER	— Large white flowers with solange tint in the center. Tall stems that are excellent for cutting. Quite late	4.00
No. 130 — JOE HANRATTY	— Very large rose pink flat flowers on tall strong stems. One of the showiest varieties we have	7.50
No. 144 — LARGE DOUBLE	— Light red flowers on strong stems. Very showy	5.00
No. 147 — PRISCILLA McDONOUGH	— Large flowers of bright rose pink on tall almost leafless stems. An excellent cut flower sort	2.00
No. 173 — MEDIUM SIZED FLOWERS	— Bright pink with red markings. Much the same shape as No. 41 — Florence Gardner Bolin. Quite late. A favorite for cutting	2.50
No. 201 — SINGLE VERY LARGE	— Rose Pink flowers of medium height. Stands up well in the garden and is very excellent for landscape effect	5.00
No. 205 — BRIGHT ROSE PINK	— Very showy for landscape effect. Moderate height	3.00
No. 397 — LEONE GARDNER HANRATTY	— This is a red red that seems to glow in the twilight as night falls. As other reds disappear in the gathering gloom, this one seems to become more red. It is the closest to being a true red of the many sorts we have. A good sized double on strong, rigid stems	5.00
No. 441 — GEORGE LEONHARD	— Rose pink. Very double flowers	10.00
No. 452 — ROBERTA GARDNER	— Large fully double blooms of a fine lilac pink shade on tall strong stems	5.00
No. 465 — JACQUELIN HANRATTY	— Large red blooms much like Karl Rosenfield but opens better and is a better shade of red. Stems are strong and rigid	5.00
No. 39/10 — PATRICIA HANRATTY	— Japanese — Great saucerlike deep red blooms	4.00

We ship only healthy, thrifty roots, freshly dug from our garden. All stock guaranteed to be true to name. If any stock proves untrue to name, we hold ourselves in readiness, on proper proof, to replace all such stock, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said stock.

We cannot, due to circumstances beyond our control, assume responsibility after safe delivery. Instructions on planting and care will be included with each shipment of lilacs or peonies.
